ABOUT ME

Senior Software Engineer with over 5 years of experience building high-traffic products and data-intensive applications. Led frontend architecture initiatives for an IoT platform with 150K+ users, reducing load times by 37% and improving rendering performance by 50%. Experienced in designing end-to-end systems, including backend APIs, internal tooling, and deployment infrastructure. Published author on IEEE Xplore, international speaker, and television guest discussing technology.

EXPERIENCE

Senior Software Engineer

Ubidots • Feb 2024 - Present

- Led frontend architecture initiatives for an IoT platform with 150K+ users.
- Reduced dashboard load times from 8s to 5s (~37% improvement).
- Optimized widget rendering with Apache ECharts from 30s to under 15s (~50% improvement).
- Reduced deployment times from 50 minutes to 20 minutes (~60% improvement).
- Established engineering quality standards and internal tooling for a team of 20+ developers.
- Developed payment and subscription systems.

Mid-Level Frontend Engineer

Ubidots • Jun 2022 - Feb 2024

- Optimized IoT dashboards by migrating data flows to TanStack Query.
- Improved performance and UX in high data-volume applications.
- Developed advanced visualizations with Apache ECharts for data-intensive scenarios.
- Implemented accessibility improvements and visual consistency across responsive applications.

Frontend Developer

Clever Cloud • Jul 2021 - Jun 2022

- Developed interfaces for 20+ client projects using React, Vue, and PHP.
- Managed direct client relationships, including Hola Buzz, from initial development through ongoing support and maintenance.
- Implemented CI/CD pipelines to improve deployment cycles.

Google Developer Student Club Lead

Google Developers • Ago 2020 - Jul 2021

- Led a community of 60+ students and faculty focused on software development.
- Organized ~20 technical events, including workshops, talks, and hands-on sessions.
- Designed and developed the community's website.
- Participated as a speaker and facilitator in educational events.

SKILLS

Frontend Engineering

React, TypeScript, React Native, scalable UI architecture, design systems

Performance & Data Visualization

ECharts, rendering optimization, large-scale data visualization

Backend & Infrastructure

Node.js, REST APIs, PostgreSQL, MySQL, CI/CD, deployment workflows

Developer Experience

ESLint custom plugins, internal tooling, testing infrastructure

AI-Augmented Engineering

LLM-assisted workflows, automation tooling, Claude Code

EDUCATION

Bachelor's Degree in Information and Communication Technologies Engineering

Instituto Tecnológico Superior del Occidente del Estado de Hidalgo

Tecnológico Nacional de México
